and

Case 19-RC-14213

NUCLEAR CHEMICAL WORKERS ALLIANCE

Petitioner

and

HANFORD ATOMIC METAL TRADES  
COUNCIL, AFL-CIO

Intervenor

**CORRECTION TO DECISION AND DIRECTION OF ELECTION**

The decision in this matter contains an error in fn. 9. In that footnote I recited that Petitioner has a sufficient showing of interest in the Fluor Unit. This is incorrect. Petitioner does *not* have such a showing.

Petitioner however, *has* a sufficient showing in the CH2M Unit. Accordingly, the direction of election is unconditional in the CH2M Unit, but not in the Fluor Unit.

**DATED** at Seattle, Washington, this 25<sup>nd</sup> day of March 2002.
