What's going on in this country.

Back when I was young, it was the unions that ensured that I got descent pay. It was the unions that promoted a balance of power between workers and the rich and powerful corpoarations. Now, i don't have that, nor do my children. It is sad to see how my children are struggling to make ends meet on the non-union jobs. The USA as a country can do better for its citizens. The USA can promote fairness and the "even playing field."

As a public employee we work hard each day and our rights effect our students rights to and education. We need more than ever in this country a voice of reason for employees and especially students. They are the future of this country and if cannot give them a fair and equitable education then this country is going to hell in a hand basket. We need your support to help us do our jobs. Please continue to support all members of unions who get up every day and support our nation as public servants. We deserve to be heard.

Sincerely,

Cherise Arthur
